

A New Species of Construction Toy

A DIFFERENT SPECIES OF CONSTRUCTION TOY!

LIKE OPENING A NEW TOY SET EVERY TIME Modular high-density foam pieces and uniquely designed plastic connectors you can connect, stack, rotate, mix and match by following the instructions – or your imagination – to create an inexhaustible array of lovable, captivating creatures for play or display.

SUPERSIZE MODELS
For building bigger creatures than most construction toys on the market.

KID-FRIENDLY AND PARENTAL THUMBS-UP PIECES They're colorful, manipulate easily, safe, washable and abundant (several children can play together and create 3, 4 or even 5 separate creatures!)

AWARD-WINNING CANADIAN COMPANY
Bloco Toys have earned numerous parent, children and consumer choice awards.

A TOOL FOR FOSTERING COGNITIVE AND PHYSICAL DEVELOPMENT
Tasks like finding, serial ordering and assembling the different pieces stimulate logical-mathematical intelligence, fine motor skills and spatial awareness, whereas freely associating the various pieces – made easy thanks to their modular design – to improvise an original construction, sharpens one's imagination and creativity.

SELF-ESTEEM BUILDER The WOW factor triggered by the final product isn't limited to visual appeal, but also the confidence-boosting pride in one's accomplishments, generally accompanied by a beaming smile.

THE SUM OF ALL THESE PARTS? ALL SPECIES OF FUN!
