## MRB LINE - SENSORY TOYS

SuperToy MRB line has been specifically designed to support the proper development of a baby by stimulating its senses. Our brain-boosting toys that stimulate and nurture baby's imagination and development. Learn the importance of proper sensory integration in newborns. High colour contrasts of black, white and red stimulate baby's sight from the first weeks of life. Rattling and crinkle elements in toys help to stimulate the sense of hearing, affecting its normal development, which is extremely important in the later learning of speaking. Stimulating the sense of touch is extremely important in the normal development of the baby. Toys form SuperToy MR B line are made of materials of different textures, embroidery and tags, which support the infant in exploring the world around. The newborn learns to associate with objects and respond appropriately to stimuli.

## ECO TEETHERS

### Wood

Lightweight, extremely handy teethers from maple wood. Ergonomic design provides drug-free pain relief for your baby's sore gums. Various sizes help to customize the teether to the manual skills of the child.

### Natural rubber (hevea)

Extremely soft and flexible natural teethers made entirely of natural rubber without the addition of harmful chemicals. Phthalate free.

### Bib with a teether

A revolutionary solution for teething children. Detachable teether is always at hand and a super bib absorbs excess of saliva. Teething has never been so easy!

## ROYAL SPA COLLECTION

Lullalove Royal Spa Collection is designed both for parents and their babies. All products are natural and safe. Our collection includes hairbrushes for newborns and kids, massage brushes for women, natural sponges (from Mediterranean Sea), bags and natural rubber bath toys. We redesigned timeless rubber ducks in the Royal version without a hole to ensure hygiene in the bath. Royal Ducks are handmade from natural rubber and can be used also as a teether.

We are constantly developing Spa Collections with a new products.
